Thank you for taking this flyer. We lost our puppy on December 18 and have been frantically searching for her since.

Lucy was born on my wife's birthday, and they have a special bond. She is heartbroken without Lucy, who is her joy after the long hours of study and hospital work as she attends nursing school. Lucy is microchipped; so call us at (916) 674-2837; or Sacramento Animal Control by dialing 311; or take her to any vet—whichever way, she comes home to us.

Any help you might be able to offer would be most appreciated.
